Profile

Power BI Developer with a strong foundation in Business Information Technology and IT consulting, specializing in Power BI, Excel, SQL, and Python. Experienced in transforming data into actionable insights through dashboard development, data modeling, and analytical problem-solving. Currently expanding my knowledge in Artificial Intelligence and Data Engineering, with an interest in applying technology to solve business problems.

Professional Experience

POWER BI DEVELOPER

INTASEND SOLUTIONS, NAIROBI

MARCH 2025

– Present

- Connected Power BI to multiple data sources to extract and consolidate data for reporting and analysis.
- Used Power Query to clean, transform, and prepare data for analysis.
- Designed data models to support efficient analysis and reporting across multiple datasets.
- Developed DAX measures and calculations to support business KPIs and analytical requirements.
- Built interactive Power BI reports and dashboards to provide management with insights for decision-making.
